Welcome to Rubber Trouble!

We’ve added lots more images for you to choose from! If there are any images you’d especially like us to carry, please let us know. Our newest stamps include vintage and original Asian, Hawaiian, and alphabet images that I’m sure you’ll enjoy.

**We specialize in unmounted stamps** of high-quality pink rubber at a low price.

**We also carry a selection of supplies.** We have inkpads and cardstock for your stamping and scrapbooking needs, and our prices are very low.

**We look forward to serving you!** We are happy to answer any questions you might have. Please write to us at our P.O. box, or e-mail us at rt@rubbertrouble.com. You might also enjoy visiting our World Wide Web site, at http://www.rubbertrouble.com/. You can order online if you like. You’ll find even more items available there!

Thanks for your interest in Rubber Trouble!

### Frequently-asked questions:

#### Are you an angel company?

We are an angel company—which means that if you use our stamps to make artwork, you are welcome to sell your art. All hand-stamped uses are OK with us—after all, stamps are tools for making art, and we expect you to get out there and make some! :-) (Please, no mechanical reproduction.)

#### Do you sell unmounted stamps?

Our stamps are sold **unmounted only.** You may choose to mount them using any method you prefer.

#### What are “unmounted” stamps?

Unmounted stamps (or UM s) are the rubber part of the stamp only, no wooden handle or cushion. You can mount them yourself, either on wood in the traditional way, or using alternative mounting methods such as the HALOS® Mounting System. It is far cheaper to buy rubber stamps unmounted, and they are easier to store. Please see the back of the catalog for a stamp mounting instruction sheet. Or, you can e-mail us at rt@rubbertrouble.com or visit our website.

#### How do I order?

Fill out the order form on the last page of this brochure, and mail it in with your check, money order or credit card number (we take Visa, MasterCard and Discover). Or order online at [http://www.rubbertrouble.com/](http://www.rubbertrouble.com/). Soon the stamps will be winging their way back to you via the US Postal Service! (Or Canada Post... or the Royal Mail... etc.)

What are POSTOIDS? Postoids are rubber stamps that look like postage stamps. They can be humorous, artistic, completely imaginary, based on real stamps, hand-drawn, or beautifully detailed “engraving-style” images. This page and the next include postoids that were taken from original old stamps in the 19th or early 20th centuries, as well as postmarks and other unusual vintage images. (There are some other postoids scattered throughout this catalog as well, so keep your eyes open for them!)

We don’t put a “perforated-look” border around our postoids, because real stamps wouldn’t have a printed border. This way it is easy to stamp realistic looking stamps. Simply stamp colored ink on pastel paper, then cut around the postoid with perforation-pattern scissors. You’ll create some amazingly realistic stamps!

Mounting your own rubber stamps

What are “unmounted” stamps?
Unmounted stamps, or "UMs," are the rubber part of the stamp only, the image, without a wooden handle or cushion. You can mount them yourself, either on wood in the traditional way, or by using alternative mounting methods. It is far cheaper to buy rubber stamps unmounted, and UMs are often easier to store than mounted stamps. Mounting your own stamps is very easy!

OK, how do I mount stamps?
There are several different ways to mount stamps. You can mount them the traditional way, on a maple wood mount. You can mount them on any item that is the correct size—jar lids, alphabet blocks, etc. You can also use a temporary mounting system such as HALOS or the cling vinyl system. (Many people find the temporary system to be the cheapest and most convenient of all.)
Stamps you receive from Rubber Trouble have excess rubber trimmed away and are ready to be mounted using any method you choose.
A typical stamp is mounted by being put together in a sort of sandwich. The rubber is attached to a foam cushion, which is then attached to the mount.
Cushion, usually foam rubber, comes in different thicknesses and colors and is often sold in sheet form, with adhesive already applied. (if you use the HALOS system, you don't need cushion at all!) If the cushion you purchase doesn't have adhesive, rubber cement will work fine. I'm told that in a pinch, a soft mouse pad can be cut up to make cushion -- but cushion intended for the purpose is usually best. You can purchase cushion at some rubber stamp shops or by mail order.
Mounts are traditionally made of maple wood. You can purchase wood mounts at some rubber stamp shops or by mail order. You might also be able to find suitable wood at a lumber supply store. Hardwoods work best, as softwoods tend to absorb ink and water too readily. If you can’t find wood, any flat item can be used.

Putting the stamp together
Rubber Trouble stamps come pre-trimmed, but you can trim them further if you like. Use good sharp scissors. (Believe it or not, kitchen shears work well for this!) Once the stamp is trimmed to your liking, mount it on the cushion (using rubber cement if the cushion is not self-adhesive). Then trim the cushion around the stamp, carefully. It's usually OK to leave some extra cushion around the edges.
Once your cushion is cut out, attach it to the wood mount (with the self-adhesive or with rubber cement).
See, it was easy! :-) If you don't like the way it turned out, you can remount it. If the adhesive has set, just heat the stamp for 10 seconds in the microwave and the stamp and cushion should peel right off.
One commonly used alternative method for mounting stamps is called HALOS. You can find HALOS supplies elsewhere in this catalog. With the HALOS system, you don't use wood mounts at all. Instead, you attach stamps to an acrylic mount with hook and loop tape -- commonly known as Velcro! When you're done, you can remove the stamp. You only need one set of acrylic mounts, no matter how many stamps you have! This is the method we use at Rubber Trouble.

Heraldry Kit

This great stamp set will allow you to create your own coat-of-arms! The set includes two full sheets of stamps. The first sheet includes basic shapes that can be used by themselves, or with masking, to make all kinds of basic shields. (Many of these shapes can be used in other stamping projects as well, such as shadow stamping!) The second sheet includes a selection of “charges,” images that would appear on a coat-of-arms, such as a lion rampant, a sun in splendor, a unicorn, and more!

This kit includes 24 unmounted stamps and an instruction sheet that shows how you can use these stamps to make great coats-of-arms or medieval-themed artwork. We know you’ll love it!

**20-00: Heraldry Stamp Kit (Unmounted, includes 2 stamp sheets)—$19.99**

*Sheet 1, Actual Size*
Examples of what you can do with our heraldry stamps—and this is just a start! These stamps are great for medievally-themed artwork, historical homework, and all kinds of decoration.

Shipping and Handling Charges

**US SHIPPING AND HANDLING** for orders containing supplies—like inkpads, paper, HALOS, or Quickie Mount:

- **Order under $16:** $4.00
- **$16.01-$29.99:** $5.00
- **$30.00-$49.99:** $6.00
- **$50.00-$99.99:** $7.00
- **$100-up:** You are our hero and you get free shipping!

**US SHIPPING AND HANDLING** for orders containing **ONLY unmouted stamps** (and nothing else!):

- **Order $0.01-$99.99:** $1.75
- **$100-up:** We love you to pieces and you get free shipping!

**CANADIAN/OVERSEAS CUSTOMERS:** All prices are in US dollars, and we require payment in US$. Credit cards work great for this. Please add $2 to all shipping/handling charges if shipping to a Canadian address, or $5 if shipping overseas. Thanks!

**WHY ARE SHIPPING PRICES DIFFERENT ON THE WEB SITE?** We try to keep them as close as possible, but because of the way the shopping cart software works, sometimes the shipping and handling price will be different on the web site, since it uses a different method to figure out how much shipping should cost. It should average out in the long run, and we try to make it as fair as we can. :-) Sometimes it is cheaper on the web site, and sometimes it is cheaper to order by mail.
